Way2Cure
Senior Marketplace

From home care to a complete ecosystem for senior living

Product proposal

The solution: one marketplace, built around care

Medical & mobility

Wellness & daily living

Way2Cure Marketplace

Home care services

Safety & smart tech

What we will sell

Medicines

LAUNCH

- Prescription medicines
- Over-the-counter
- Chronic refills (BP, sugar, heart)

Medical devices

LAUNCH

- BP monitors, glucometers
- Oximeters, nebulisers
- Thermometers

Daily care

LAUNCH

- Adult diapers, underpads
- Wound care & dressings
- Hygiene & sanitisers

Mobility & recovery

- Walkers, wheelchairs, sticks
- Hospital beds
- Buy or rent

Nutrition & wellness

Subject to seller verification and applicable device rules.

Care services at home

Nurse at home

- Injections & IV care
- Wound dressing
- Post-surgery care

Doctor at home

- Home consultations
- Check-ups
- Follow-up visits

ICU at home

- Critical-care setup
- Monitors & oxygen support
- Trained team on call

Book services and order medicines in one place.

Specialised care at home

ICU care

- Critical-care nurse
- Monitors & oxygen
- Doctor supervision

Ventilator care

- Ventilator or BiPAP
- Tracheostomy care
- Respiratory support

Stroke care

- Nursing & physiotherapy
- Speech & mobility therapy
- Recovery plan at home

Cancer care

- Oncology nursing
- Line & wound care
- Pain & palliative support

One doctor-led care plan for every patient.

Suitability is assessed by the treating doctor before care begins.

- Reminder before each order

Subscribe → **We schedule** → **Visit or delivery** → **Reminders & reports**

Frequencies are suggestions. Prices to be finalised with partner labs and suppliers.

Medicines in dose sachets

Morning	Afternoon	Evening	Night
			

Sorted by time
Morning to night

Ready to take
Tear one, take the dose

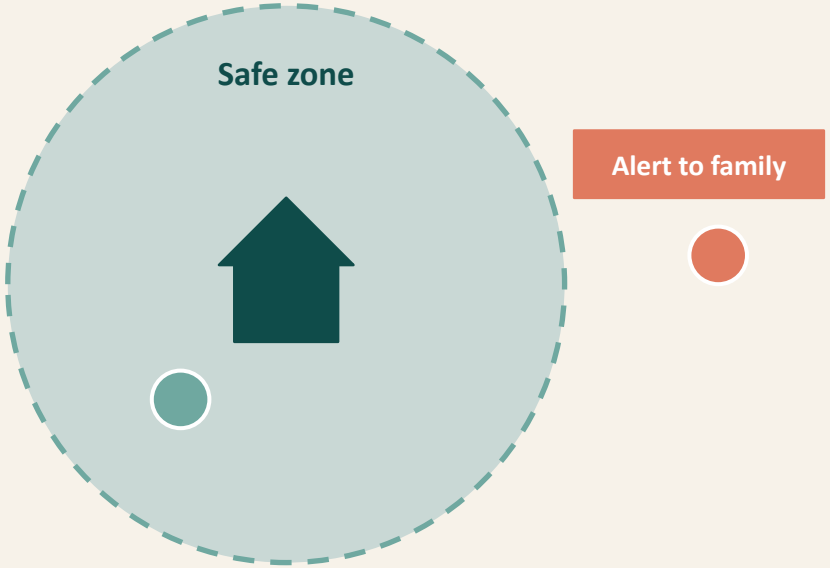

Pay per dose
Only doses you take

No full strips
No leftover medicine

Packed by partner pharmacies under pharmacist supervision, from a verified prescription.

Available for suitable medicines. Subject to regulatory and labelling requirements.

Safe-zone band for dementia care

Inside the zone: no alert. Outside: instant alert.

1. **Set the safe zone**
   Family marks the boundary around home in the app.
2. **Wear the band**
   Light arm band with built-in location tracking.
3. **Instant alert**
   Family phone is alerted when the boundary is crossed.
4. **Find quickly**
   Live location is shown on the map.

Used with the family's consent. Band features to be finalised with the device supplier.

MOBILE APP ONLY

AI reads

Medicines picked automatically

Confirm

Nearest partner pharmacy checks stock

Delivered

To your door in Mumbai

A registered pharmacist verifies every prescription order.

Prescription upload is available in the mobile app only, not on the web.

Powered by local pharmacies

Customer	Way2Cure app	Partner pharmacy	Delivery
Uploads prescription	AI reads prescription	Licensed Mumbai shops	Local rider
Chooses products	Finds nearest pharmacy	Pharmacist verifies	Same-city delivery
Pays in the app	Tracks the order	Packs the order	OTP-confirmed handover

No warehouse needed, faster delivery, and a licensed pharmacist on every order.

AI reads the prescription

Photo upload

What the AI picks out — Illustrative

Metformin 500 mg	Twice daily · 30 days
Amlodipine 5 mg	Once daily · 30 days
Vitamin D3	Once weekly · 8 weeks

Customer confirms the list

Pharmacist verifies before dispensing

Unclear? Pharmacist calls the customer

AI assists, pharmacist decides. Schedule H/H1 need a valid doctor's prescription; Schedule X and narcotics excluded.

How Way2Cure earns

Product margin

Margin on pharmacy orders

Subscriptions

Home checkups, diapers & refills

Commissions

Verified third-party sellers

Service upsell

Leads to care bookings

Four revenue lines, one customer relationship.

Revenue projection: our take per customer

Revenue line	Stream	Our take / customer / month
Prescription medicines & chronic refills	Product margin	**₹17**
OTC medicines & wellness	Product margin	**₹6**
Medical devices (BP, glucometer)	Product margin	**₹11**
Rentals (beds, oxygen, wheelchairs)	Product margin (rental)	**₹32**
Daily care (diapers, underpads, dressings)	Subscriptions	**₹50**
Nutrition & diabetic foods	Subscriptions	**₹30**
Home services (nurse, doctor, ICU)	Service upsell	**₹38**
Third-party seller marketplace	Commissions	**₹12**
Total per active customer		**~₹195**

Projected monthly revenue: Launch ~5,000 users → ~₹9.7 lakh | Growth ~25,000 → ~₹49 lakh | Scale ~1 lakh → ~₹1.95 crore

Our take only, not order value. Per-customer mix from our revenue model; planning estimate, before operating costs.

Cloud cost and capacity on GCP (Mumbai)

Dev server: 1 × e2-medium (2 vCPU / 4 GB), ~₹2,600/month, ~50 concurrent testers. Same at every stage.

Stage	Users it can handle	Prod setup on GCP	Prod cost / month
Launch	~5,000 active ~500 concurrent	1 × e2-standard-2 (2 vCPU / 8 GB), load balancer, backups	**~₹8,300**
Growth	~25,000 active ~2,500 concurrent	3 × e2-standard-2 auto-scaling, load balancer, health checks, managed DB (HA)	**~₹25,000**
Scale	~1 lakh active ~10,000 concurrent	6 × e2-standard-4 multi-zone auto-scaling, CDN, Cloud Armor, managed DB (HA), monitoring	**~₹40,000**

White-label ready

Hospital brand

Own logo, own colours

Pharmacy chain brand

Own logo, own colours

Care provider brand

Own logo, own colours

One Way2Cure platform underneath

Own logo & colours

Own app name & domain

Own dashboard & reports

Planned for a later phase, after the Mumbai launch. Partner types shown are examples.

Proposed roadmap

Phase 1

Months 1–3

Core catalogue, prescription upload & ordering

Phase 2

Months 4–6

Pharmacy partners, payments, delivery & subscription plans

Phase 3

Months 7–9

Seller onboarding & scale across Mumbai

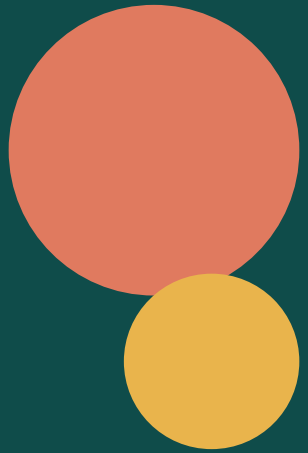

Phase 4

Later

White-label for partner brands

Proposed timeline, refined after discovery.

Care at home, now with everything seniors need.

Thank you. Questions?
